PROFILE SUMMARY

- Proficient in Figma, Adobe XD, Photoshop, and Illustrator for wireframing, prototyping and high-fidelity design.
- Experienced in conducting user research, usability testing, and applying design systems to deliver consistent and accessible experiences.
- Skilled in responsive design, interaction design, and information architecture.
- Adept at collaborating with cross-functional teams, supporting bid teams on professional documents, and adapting digital content like videos, banners, and voiceovers into multiple regional languages for accessibility across India.
- Strong communication and presentation skills, effectively translating complex ideas into actionable design solutions and aligning stakeholders with user-centered goals.

WORK EXPERIENCE

VINSYS IT SERVICES UI/UX DESIGNER

Apr 2024 - Present | Full Time | Pune, IN

- Lead cross-functional teams of designers, developers, and product managers on government portals and banking domain projects, executing user-centric design strategies aligned with business objectives.
- Manage end-to-end design process—including research, wireframing, prototyping, high-fidelity UI, and design systems—while collaborating in Agile sprints to ensure timely delivery of high-quality solutions.
- Conduct user research, usability testing, and stakeholder interviews to gather insights and translate them into intuitive, accessible, and visually engaging interfaces.
- Contribute to bid teams by designing professional business proposals and tender documents, and support FLS by adapting digital content—including videos, banners, and voiceovers—into multiple regional languages for enhanced accessibility and reach.
- Communicate design decisions effectively to stakeholders and development teams, ensuring seamless handoffs and alignment with project goals across all domains.
